BILLS MUST BE READY

With the ending of the present fiscal period tomorrow there are, as usual, numerous bills outstanding against various departments of the Government. It has been the time-honored custom, at the end of such periods for many creditors to forget all about the money owed them by the Government until perhaps a year or so after amounts are due, at which time much trouble must be experienced all round before the old bills can be properly identified, ratified and paid. Sometimes a bunch of these forgotten bills goes to the Legislature for a special appropriation. Bills for the period now closing must be submitted, if payment is desired, before the 10th of next month.

DR. COOPER'S MISION

(Continued from Page 1.)

Incidentally Dr. Cooper was elected a member of the House of Delegates. The plans for the new buildings for the Insane Asylum are today presented by the architects, Messrs. Beardslee and Gill.

Some of the features are new and worthy of your careful study. The titles of many of the officials of the Board of Health have been changed by the Legislature and I recommend new commissions dating from July 1st, be issued to all except Government physicians.

Except Dr. C. R. McLean all the Government physicians have by their signature accepted the Revised Instructions to Government Physicians as directed by your honorable Board.

Plumbing Inspector E. G. Keen is directed by his physician to request a leave of absence for two months, which request, subject to your approval, has been granted with the promise that he shall furnish a temporary substitute free of expense to the Board. I have appointed James Nott, Jr., as such substitute and request he be confirmed.

The reports for May are herewith presented. The reports of Sanitary Inspectors disclose the following work performed: Number of inspections, 7,096; sanitary work offered, items, 1,219; sanitary work completed, items, 1,227; special duty days, 38.

Dr. Barry has completed her year of work and is entitled to a final settlement for the year.

The report of Dr. Cofer is herewith presented.

The City Mill Co. has in the most considerate manner withdrawn its bid on lumber, thus avoiding a question liable to produce friction. I wish to register my personal appreciation of the act.

The new fishmarket is about to be opened and in conference with the managers, the management for inspectors will be mutually satisfactory.

The markets will furnish the Board the funds required for inspectors, so they will be paid directly by the Board. The Government Fish Inspector or will exercise supervision. The Government Market will be nearly deserted.

It is no advantage, but a positive loss to a community to have lines of business overdone, hence I have stated the Board as responsible for the quality and healthfulness of food will discourage further public market schemes at present.

Other committee reports will be presented in due order.

THE BUSINESS MAN'S HANDY INDEX, published in the Saturday Bulletin and the Weekly Edition, gives a concise and complete resume of all legal notices, calls for tenders, judgments, building permits and real estate transactions. Evening Bulletin, 75 cents per month. Weekly Bulletin, \$1 per year.

Mongolia Will Have Much Room

H. Hackfeld & Co., the local agents of the Pacific Mail Steamship Co., this morning received a cablegram from Yokohama stating that the new liner Mongolia had left that port for Honolulu with 1,700 tons of Oriental freight for this city. She will have accommodations for 130 to 135 cabin passengers from here to San Francisco.

The cablegram did not give the time of the Mongolia's departure, but it is certain that she must have left Yokohama either late yesterday or early this morning. Hackfeld & Co. expect the steamship to arrive here some time during July 7.

ENGINEER WAS INSANE.

Vancouver, B. C., June 29.—A raving maniac ran the Canadian Pacific passenger train into Slocan Junction this morning. Engineer C. A. Hall had become violently insane, and declared he would run a train faster than it had ever gone before. How the train reached Slocan safely is a mystery and a miracle, for Hall was at the throttle and in command.

During the trip Hall left the throttle and shoved coal into the furnace with a madman's fury. When the train rushed into the depot the fireman leaped from the cab and ran for his life. He had been unable to do anything with Hall when the engineer began to rave.

The engineer was overpowered and held a prisoner in his cab until Nelson was reached, where he was handed over to the police. So desperate were his struggles while on the way to the lockup that four men had all they could do to hold him. Aside from the unusual speed, the passengers knew nothing of what had occurred.
